Professional Summary

Frontend Developer with professional experience building modern, responsive web applications using React.js, Next.js, TypeScript, JavaScript, and Tailwind CSS. Experienced in developing reusable UI components, creating custom themes, building portal interfaces, and integrating REST APIs with frontend applications. MCA graduate with hands-on experience in full-stack web development and collaborative development using Git and GitHub.

Professional Experience

Trainee Developer | Prove it Catalysts
Nellore | May 2026 – Oct 2026

- Developed modern, responsive user interfaces for the **Yuvpreneur project** using **React.js, Next.js, TypeScript, and Tailwind CSS**, following component-based development practices.
- Built and maintained **reusable UI components** to ensure consistency, scalability, and maintainability across application modules.
- Designed and implemented **custom themes and responsive layouts** aligned with project requirements and design specifications.
- Developed frontend modules for the **Yuvpreneur School Portal**, creating responsive interfaces and reusable components across multiple sections.
- Collaborated with backend developers to integrate **REST APIs**, consume backend endpoints, and dynamically render API-driven data within frontend components.
- Used **Git and GitHub** for version control and collaborative development while troubleshooting UI and API integration issues.

Technical Skills

Languages: JavaScript, TypeScript, Python
Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS
Backend & APIs: Flask, REST APIs
Databases: MySQL, SQLite
Tools: Git, GitHub, VS Code, Vercel.

Projects

TalentBridge — Recruitment & Staffing Platform
Next.js | TypeScript | Tailwind CSS | June 2026

- Developed a responsive recruitment and staffing platform using Next.js, TypeScript, and Tailwind CSS, implementing reusable components across job listings, services, and quote-request modules.
- Implemented reusable UI components and responsive layouts focused on usability, accessibility, and consistent user experience across devices.

Credit Card Approval System — Full-Stack Web Application
Python | Flask | SQLite | HTML | CSS | JavaScript | August 2025

- Developed a full-stack credit card approval application using Flask and SQLite with credit validation and virtual card issuance functionality.
- Implemented application processing and backend database integration to support the credit card approval workflow.

Shopping Website — E-commerce Web Application
React.js | JavaScript | CSS | March 2026

- Developed a responsive shopping website using React.js, JavaScript, and CSS, organizing multiple product categories within a unified platform.
- Built reusable frontend elements to provide a consistent and user-friendly browsing experience.

Internships

Python Intern | Computer Employment Service Educational Society (CESES)
Jan 2026 – Mar 2026

- Completed a 3-month internship applying Python, NumPy, and Pandas for data processing and developing web applications using Flask and MySQL.

Generative AI Intern | AIMER Society
Jun 2025 – Jul 2025

- Completed a 6-week internship exploring Generative AI, Hugging Face, Gemini LLMs, image classification, object detection, and web UI development.

Education

Master of Computer Applications (MCA) — 8.95 CGPA
Narayana Engineering College | Aug 2024 – Apr 2026

B.Sc. Statistics — 8.04 CGPA
Krishna Chaitanya Degree College | Oct 2021 – Jul 2024

Certifications

- Python Certification — Internship
- Data Science Workshop — Practical Approach to Data Science and Applications

Languages

- English
- Telugu
